EXAMINER: Initial if reference considered, whether or not clisation is in conformance with MPEP 609; Draw line through cliston if not in conformance and not considered. Include copy

of this form with next communication to applicant.

Applicant's unique citation designation number (optional). See Kinds Codes of USPTO Patent Documents at www.uspto.gov or MPEP 90.104, ³ Enter Office that issued the document, by the two-detect code (VIPO Standard ST.3). For Japanese patent documents, the indication of the year of the reign of the Emperor must precede the serial number of the patent document. "Kind of document by the appropriate symbols as indicated on the document under WIPO Standard St. 16 if possible. "Applicant is to place a check mark here if English Imaginger Translation is statished.
